Technical Skills

Frontend	Next.js, TypeScript, Tailwind CSS, Shadcn, Redux Toolkit, URL State Management
Backend	Node.js, Express, Prisma, REST APIs
Databases	MongoDB, PostgreSQL, SQLite
Tools	Git, GitHub, VS Code, Postman, Figma, Firebase

Experience

2023 – 2024 **Full Stack Developer**, *Apptex Software Solutions, Peshawar*
- Developed modern SaaS and enterprise-grade web applications using Next.js and Express.
- Led front-end development using Tailwind CSS and Shadcn for highly responsive UI.
- Implemented efficient state management using Redux Toolkit and custom URL state.
- Worked on scalable databases including MongoDB, PostgreSQL, and SQLite with Prisma ORM.

Projects

Omni	SaaS application for salon service booking and management. Includes scheduling, employee management, and Stripe integration.
DevFlow	A full-stack StackOverflow clone with Q/A functionality, voting system, and markdown editor.
Messenger	Real-time messenger clone with authentication and chat features using Next.js and pusher.
Moto-Arena	AI-powered car marketplace built using Next.js, Gemini API, and cloud storage integration.

Summary

Full Stack Next.js Developer with 1 year of professional experience at Apptex Software Solutions, Peshawar. Proficient in modern web technologies including TypeScript, Tailwind CSS, and backend systems using Express and Prisma. Skilled at building scalable and performant web apps with a strong focus on clean architecture, UI/UX, and API design.

Education

2021 – 2024 **BSc in Computer Systems Engineering**, *UET Peshawar*
Graduated with solid understanding of system-level development, networking, and full-stack web application design.
